620 - New Jersey

Thursday, December 26th 2024, 10:27 AM (PST -08:00)

Shop Safety Walk

☒ ☐ ☐ HAZCOM: All containers with contents are labeled

☒ ☐ ☐ HAZCOM: SDS Station is well labeled and accessible

☒ ☐ ☐ OSHA: First Aid Kits are labeled, accessible and stocked

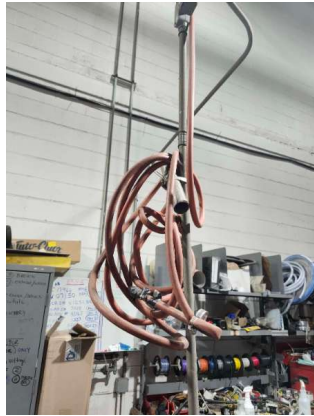

New Kit

☒ ☐ ☐ OSHA: Warehouse floors are clear of debris, "clutter piles" and other tripping hazards

☒ ☐ ☐ OSHA: Hoses are coiled or managed to avoid being a tripping hazard

☒ ☐ ☐ OSHA: Electrical cords in use are flat to the floor or overhead to not create a tripping hazard

☒ ☐ ☐ OSHA: All empty pallets are oriented horizontally (not on end) so as to not fall over

☒ ☐ ☐ OSHA: PPE in rebuild and production is in good condition, clean and properly stored

☒ ☐ ☐ OSHA: All employees in the shop/warehouse are wearing correct PPE for task being performed

☒ ☐ ☐ OSHA: All 3-phase and single-phase test circuits are properly locked-out/tagged-out

☒ ☐ ☐ OSHA: Forklift inspections are being conducted prior to use

☐ ☐ ☒ OSHA: Forklift propane tank is properly secured (N/A if electric)

☒ ☐ ☐ OSHA: Drop-offs greater than 48-inches are guarded by a chain or rail

☒ ☐ ☐ OSHA: All items stored over 6-feet are secured from falling

OSHA: Stairways are clear, accessible and free of tripping hazards

OSHA: Bench Grinder guards are in place and properly adjusted (Top tongue guard - 1/4" & Lower work rest - 1/8")

OSHA: Face-shield and leather gloves are available near the grinder

 Face-shield was but not the leather gloves. They are now both at the proper place

OSHA: The facility has hazardous waste accumulation buckets/boxes dated within 1-year

OSHA: Back-up PPE is available and accessible

OSHA: The previous year's OSHA 300A Summary is posted for all employees to view (between February 1st to April 30th only. N/A the rest of the year))
